

## UPSKILL TECHNOLOGIES – ADVANCE EXCEL EXERCISES

[WWW.UPSKILLTECHNOLOGIES.COM](http://WWW.UPSKILLTECHNOLOGIES.COM)

**Exercise#** : 101M  
**Level** : Advance (VBA)  
**Objective** : To assess practical use of VBA loops.  
**Compatibility** : With all versions of Excel

### Instructions:

- 1) Open the exercise workbook 101M
- 2) On the sheet "Spain" there is a grouped shape of country "Spain" with different provinces as items.
- 3) The task here is to fill the column "A" with the list of available provinces names in the shape.
- 4) Then write a code and attach it to the button "Update Map" so that if RGB color codes for all the provinces are given and the code is run it would update the colors on the map.

Save the final workbook with your name and the exercise # and send it for evaluation to [info@upskilltechnologies.com](mailto:info@upskilltechnologies.com)
